

Bloxide®

An aluminum-base
weldable primer

**RIGHT
FOR
THE
JOB.™**

Bloxide® is a versatile weldable primer with a unique aluminum-base formula that eliminates cleaning or removal before welding, thus saving time and labor costs. Enhanced by corrosion preventative features, Bloxide can be applied to a wide range of metals for extended periods of storage, assisting in producing X-Ray quality welds.

- Enhanced corrosion resistance for extended periods of storage
- Aluminum-base formula allows for welding without removal, reducing downtime and rework contamination
- High temperature resistant to 800°F (427°C)
- Recommended film thickness: wet 3.0 mil, dry 0.75 mil
- Can be sprayed, brushed or parts can be dipped into it
- Made in U.S.A.

Industry Uses:

- Welding
- Metal fabrication
- Oil & Gas
- Pipeline Transmission
- Ship Building
- Pre-Fabrication

Surface Uses:

- Steel
- Iron
- Aluminum
- stainless steel
